TO: Dr. C. J. D. Brown

FROM: M. S. Campbell

SUBJECT: Port Washington Narrows Pollution by Western Gas Co.

Please refer to Mr. Lent's letter of Sept. 22 and my reply. This matter should be investigated at your earliest convenience.

This is an old case and there is considerable material in the files on it. The case went to court and a decision against the Gas Company was obtained. I would look up all of the old material before proceeding further, but apparently the condition is as bad or worse than it ever was.
